

Engineering-Led. Field-Ready. Puerto Rico Based.

Engineered Solutions Group LLC (ESG) provides PE-led mechanical engineering, HVAC contracting, equipment installation, and field execution for industrial, institutional, and government facilities throughout Puerto Rico.

CORE COMPETENCIES

- HVAC and mechanical systems: chillers, AHUs, ventilation, chilled-water systems, pumps, piping, and VFD integration.
- Mechanical equipment installation, replacement, retrofit, repair, and field support.
- Existing-condition assessments, troubleshooting, constructability reviews, and executable scope development.
- Shutdown planning, LOTO and rigging coordination, submittals, RFIs, work plans, and technical documentation.
- Startup, testing, commissioning support, and coordination of qualified specialty trades and partners.

REPRESENTATIVE EXPERIENCE

- Mechanical equipment installation and retrofit work in regulated manufacturing facilities.
- HVAC and facility-system improvements in industrial and healthcare environments.
- Cooling-tower, air-handling, ventilation, and planned-shutdown assignments.
- Pumping, piping, rotating-equipment, and water/wastewater infrastructure support.
- Field investigations, troubleshooting, constructability, scope development, and multidisciplinary coordination.

WHY ESG

- Puerto Rico-based and locally responsive
- Licensed Professional Engineer leadership
- 20+ years of relevant industry experience
- Engineering judgment connected to field execution
- Owner-led communication and accountability
- Bilingual English-Spanish coordination

PRACTICAL ENGINEERING.
RELIABLE EXECUTION.

NAICS 238220 | 541330 | 811310

FEDERAL VALUE PROPOSITION

- Prime contractor for small, defined, locally executable mechanical scopes.
- Puerto Rico mechanical and field-execution partner for national primes and A/E firms.
- Local presence that reduces mobilization risk and execution friction.
- Flexible delivery as prime, subcontractor, subconsultant, or technical partner.
